

International Workshop on Statistical Methods for Business and Industry Applications: January 8-9, 2015, Chennai, India.

Co-Organizers: Indian Statistical Institute (ISI), International Society for Business and Industrial Statistics (ISBIS), University of Madras.

Supporting Organizations: International Indian Statistical Association (IISA), Chennai Mathematical Institute (CMI).

Workshop Details: The workshop will consist of a series of modules that address statistical methods and modeling tools appropriate for analyzing data from business and industry (financial, marketing, manufacturing) applications. Proposed modules include applied time series analysis, times-to-events analysis, data analytics and pattern recognition.

Tentative List of Presenters

Smarajit Bose (ISI Kolkata), Vishwanath (Mahesh) Iyer (Novartis, India), Nandini Kannan (NSF, USA), Nalini Ravishanker (UConn, USA), Galit Shmueli (National Tsing Hua University, Taiwan)

Who can apply?

Post-Graduate (M.Sc. or PhD) students who have completed 1 year of study; Post-doctoral students; Junior faculty with 7 years or under since PhD. Participants must have completed one post-graduate level course in Mathematical Statistics and one in Applied Statistics. The workshop will admit a maximum of 75 participants. Applications will be accepted until Dec. 1 2014, or until the capacity is reached.

Venue: Indian Statistical Institute Chennai Center, SETS, MGR Knowledge city, CIT Campus, Taramani, Chennai, Tamil Nadu 600113, India

Participant Registration: INR 1500 per non-student participant, INR 500 for students.

Accommodation: may be available for out-station participants. Please contact organizers at chennaiworkshop15@gmail.com

Deadline for applications: December 1, 2014.
